### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Agent Catherine Anne Whealy on September 22, 2004.

The application has been amended as follows:

A. Page 1, after line 2, the following recitation has been added:

-- CROSS REFERENCE TO RELATED APPLICATIONS:

The present application is co-pending with the following related applications:  
Calibrachoa Plant Named 'USCALI4' (United States Plant Patent Application Number 10/827, 545) and Calibrachoa Plant Named 'USCALI17' (United States Plant Patent Application Number 10/827,546). --.

B. Page 3, line 7, the recitation " , not patented" has been deleted and is replaced by:  
-- United States Plant Patent Number 10,278--.

C. Page 3, line 15, the word "Pink" has been changed to read --White--.

D. Page 7, after line 14, the following recitation has been added:

-- Texture: Slightly pubescent. --.

E. Page 11, line 9, after the word "*Thielaviopsis*" the following recitation has been added: --, which causes black root rot or basal stem rot --.

***Reasons for Allowance***

Applicant's declaration filed April 19, 2004 states: "I hereby state that the new and distinct plant variety has not been publicly available nor sold anywhere in the world for more than one year prior to the filing of this U.S. Plant Patent Application." A search of the prior art has revealed no evidence that the claimed plant was either sold or publicly available more than one year prior to the filing date of the instant application. Accordingly, the publications of the CPVO breeder's rights application on February 15, 2003 and the Canadian plant breeder's right applicant on February 17, 2003 (both more than one year prior to the filing date of the instant application) are not enabled disclosures under 35 U.S.C. § 102(b) for prior art purposes.

Applicant's attention is directed to the recent CAFC decision In re Elsner, 2004 WL 1811350 (Fed. Cir. 2004), which holds that publication of foreign plant breeder's rights application may be an enabling disclosure if the plant was publicly available or on sale anywhere in the world more than one year prior to applicant's filing date. Applicant is advised that a sale or public use of the claimed plant anywhere in the world more than one year prior to April 19, 2004 is material to the patentability of the claimed plant.
